Youthworks- Director

**Benita Fernandez**

Youthworks- Director

**Francisco Ramirez, LCDC-I**

Prevention Specialist  
Channelview ISD

+

---

Channelview ISD strives to provide a safe and supportive school environment and has been fortunate to have an almost 6 year partnership with BACODA.

Through prevention, intervention, and counseling services this partnership has helped to reduce the number of students placed in DAEP over the years and has created more awareness surrounding the dangers and effects of alcohol and substance abuse.

This partnership has created ripple effects of change seen amongst both staff, students, and parents regarding substance misuse or dependency.

# BACODA services in Channelview ISD

---

## Individual / Group / Parent Services

- Meet with students and parents before services begin
- Individual counseling sessions
- Group prevention education sessions
- Follow ups with students and parents
- Crisis meetings with students and parents

## School and Community Services

- Positive Alternatives** provide fun, challenging, and structured activities with supervision, so people have constructive and healthy ways to enjoy free time and learn skills. These alcohol and drug-free activities are provided with the intent to help people stay away from situations that encourage the use of alcohol, tobacco, and other drugs.
- Alcohol, tobacco, and other drugs (ATOD) Presentations** are conducted as standalone, age-appropriate activities that increase knowledge or create awareness of the state's four prevention priorities.
- Community-Based Education and Mobilization Activities** strengthen resources to prevent substance use and misuse in the community. Such activities include participation in community health fairs, parent-teacher nights, school board meetings, and other related community-based activities.

# Who Is Eligible for Youth Prevention Programs?

---

Youth in grades K-12 and Families of youth participating in youth prevention programs
